detection under present weather conditions. Furthermore, so long as the tactical situation remains almost static there may be no noticeable change in the pattern of enemy activity,

Comment: In the past, the five-day period preceeding the launching of an offensive provided numerous indications of the probable date of attack. As yet there is no firm indication of an intent to resume the offensive.

	Comment: Chiang Kai-shek's fear of defections to the Communists or "Third Force" groups has increased the scope
	and power of Soviet-trained Chiang Ching-kuo's political officers. This
	is the first report indicating the unprecedented power of Ching-kuo vis-a-
	vis a Commander-in-Chief.

and Anarchist components of the CIC have 'firmly decided not to cooperate' in Spain's industrial and military effort unless Franco is removed.

Comment: The Spanish Communist Party is trying to capitalize on the growing sense of frustration among the underground leftist groups. So far, all Communist offers of financial aid in exchange for Communist Party control of a "popular front" have been rejected, because of the overwhelmingly anti-Communist sentiments of the great bulk of the workers within these groups. It is believed unlikely, therefore, that Spanish workers will make common cause with the Communists or resort to sabotage against the Spanish defense effort, as indicated in an earlier CIC letter to the US Embassy. The present protest, with its implied threats, is apparently calculated to induce the US to demand the liberalization of the Spanish regime. Without the cooperation of the other leftist labor groups, the Communists will remain an ineffective political force.

all four cases, Panama supported the US action and threatened the masters of the vessels with cancellation of Panamanian registry unless the cargo destined for Communist China was unloaded. In no case, however, has a Panamanian official taken the initiative in withholding the papers from such a vessel.
